- Three flame colour choices including amber, amber with blue accent and blue
- Downlighting illuminates fuel effects with lighting to compliment flames
- Eight fuel bed lighting colours, plus cycling spectrum mode
- Programmable Thermostatic Eco Remote Control
- App control on iOS & Android devices
- Up to 2kW programmable heating
- Ecodesign Energy Saving Features
- Optional Mood Lighting System
- Flames can be enjoyed with or without the heat

Inspiring flames & fuel effects

Conjuring dramatic flame effects, sparkling embers and an enchanting ambience, the eReflex's ground-breaking lighting systems effortlessly create the magic of a real fire... and much more.

Immersive lighting system

eReflex fires use Gazco's Chromalight lighting system to create a mesmerising display with almost endless possibilities. Vivid flame effects are projected to appear amongst the fuel bed for a deep, three-dimensional display and can be set to natural amber, striking blue or even a combination of the two.

Each flame colour is enhanced with down-lighting, bathing the fuel bed in your choice of warming amber or cool white, for a truly immersive display. Eight fuel bed lighting colours illuminate the fuel effects from below, providing relaxing, mood-enhancing ambience. Fuel bed lighting can also transition through each vivid colour for a gradually changing spectrum, providing the ultimate wow factor.

Customisable fuel bed

Your eReflex comes with the life-like Oak Log effect, or the contemporary Crystal Ice effect - both of which can be interchanged at your leisure to suit your ambience.

Optional mood lighting system

An optional mood lighting system lets you enhance your space, with up to 6 metres of LED lighting for accompanying shelves or around your TV. This kit offers 13 different lighting colours plus a gradually changing spectrum mode to complement your fire, or even your home's décor.

Complementary down-lighting

choose your format

The eReflex is available in three formats, single, left or right corner, and three-sided options - all from one fire.

Single-sided

Two-sided corner

Three-sided

Complete control

Flame Options

The eReflex's flames can be set to three different colour choices, including amber, amber with blue accent, and blue, plus a rolling spectrum mode that gradually transitions through all colours. Five brightness settings allow you to create a bespoke visual.

Glowing Embers

Beneath the logs and ember effects, the eReflex's up-lighting LEDs can be set to eight colours to either match or contrast with the flames. There is also a spectrum mode to cycle through each colour as well as adjustable brightness.

Downlighting

Hidden in the top of the eReflex's firebox are discreet downlighting LEDs which bathe the fuel effects in different colours to complement the various flame choices, adding to the immersion.

Optional Mood Lighting

Effortlessly control the eReflex's optional Mood Lighting system using either the remote control or the innovative app. Choose from 13 colours or the gradually changing spectrum mode, as well as adjustable brightness.

Thermostatic Heating

Choose your preferred room temperature and the eReflex does the rest for you. Select between 16°C and 35°C and the fire's 2kW heater will adjust its power to reach the desired level as efficiently as possible.

Open Window Detection

Should ambient room temperatures drop by 4°C within a space of five minutes, like when a window is opened, the fire's heater will automatically turn off to save energy. Heating can be easily resumed with the remote control or app.

Adaptive Start Control

Adaptive Start allows the eReflex to automatically turn on up to 45 minutes in advance of a pre-set time to reach the desired room temperature, ready for when you sit down and relax

Ecodesign Compliant

The eReflex's innovative energy saving features make it compliant with stringent Ecodesign energy product standards.

Gazco *pedigree*

When you choose Gazco, quality and technology are assured.
From contemporary media wall fires to traditional stoves, Gazco
are committed to creating the ultimate in flame effect fires.
Our research and development laboratories are amongst the most
advanced in the industry, ensuring the very latest innovations are
incorporated into our products.

Options for every home

Gazco is part of the Stovax Group who offer a prestigious product range, which includes everything from the traditional to the ultra-contemporary in a wide array of styles and sizes. Whether your choice is solid fuel, gas, or electric you can be sure to find a stove or fireplace from our range to add the perfect warmth and character to your home. Full details of the Stovax Group's range of products can be found at: www.gazco.com

Gazco is an ISO9001 and ISO14001 accredited company. Our rigorous quality control system ensures that all our appliances are safety checked and that they comply with the appropriate regulations with all fires in this brochure bearing the UKCA & CE marks. Similarly, our environmental management systems ensure we work in a sustainable manner, whilst endeavouring to protect the environment by minimising any possible impact from our operations.

Award-winning Manufacturer

We are proud to have been recognised as an award-winning manufacturer, for our high-quality products and innovative technology. Find out more at gazco.com/awards

Expert Retailer Network

We take great care to ensure that our fires are designed, tested and manufactured to the highest possible quality and safety standards. We are just as concerned to make certain that they are sold and installed correctly so that you will enjoy years of pleasure from your purchase.

Accordingly you will find our eReflex range is exclusively available from our experienced, independent retailer's showrooms. They will be happy to show you a selection of models in your local showroom and answer any questions you might have. These independent retailers will discuss your individual requirements covering both technical requirements and design, to ensure that you select the most appropriate product for your home. They will also be able to advise on, or assist with, the installation process as well as help provide any after-sales support and servicing your appliance may require in the future.

Whilst we encourage our retailers to promote fireplace products and their outlets via the internet, we do not believe suitable levels of customer care and satisfaction can be obtained from purchasing the product only online. We would strongly recommend that you consider this when undertaking your research and making a purchasing decision. Furthermore, please be aware that we do not offer technical support (beyond our statutory responsibilities) to products bought via nationwide online sales, where this support would normally be offered by one of our qualified, independent retailers.

In addition, Gazco fires purchased from within our Expert Retailer Network will have the additional benefit of an extended warranty period, subject to terms and conditions. Full details can be found at: www.gazco.com

Warranty Information

Your Gazco Expert Retailer will provide you with a Two Year Warranty for your new electric fire. This can be extended to a period of Four years by registering your fire with Gazco. Please note, these warranties exclude certain consumable parts. Full warranty terms and conditions are available to view at www.gazco.com.

Photography Information

Gazco pursue a policy of continuous product improvement, therefore, whilst our products are correct at the time of the photography, we reserve the right to make alterations and amendments. Exact product details should be discussed with your retailer at the time of purchase.

other *electric* fires

The Gazco eStudio and eMotiv electric fire ranges bring effortless elegance and immersive ambience to any space. Featuring mesmerising flames, flowing ember effects, and advanced Chromalight® technology, both collections offer versatile designs for seamless installation.

eStudio fires are available as inset, wall-mounted, or floor-mounted fires, with up to 2kW of programmable heating and an optional LED Mood Lighting System - perfect for media walls.

Meanwhile, the eMotiv range offers a sleek, inset aesthetic with a tapered design for a flawless, hole-in-the-wall finish.

onyx

Electric Fires

The Stovax Heating Group also extends to our extraordinary Onyx brand, which includes a luxurious range of electric fires, from the gravity-defying Orbit through to the breathtaking realism of Avanti and Fusion electric fires.

The Fusion 150RW is brought to life by state-of-the-art Authentic Flame Technology, a crystal-clear immersive display of real flame imagery. With multiple flame options available, and an array of customisable visuals, you can set the perfect ambience for your home and mood.

Meanwhile, the Orbit delivers a dramatic suspended centrepiece, granting an expansive panoramic view of exposed flame visuals and lifelike oak log effects. It can be rotated up to 340° for a mesmerising experience from almost anywhere in the room.

Onyx Orbit Electric

The Avanti electric fire range features innovative lighting systems employing layer upon layer of visual technology to weave a palette of captivating flame and lighting effects, with each one highly customisable. Crisp flame visuals appear to dance and soar between true-to-life log effects, dynamically lit from all angles for absolute immersion.

Offering mesmerising flame and ember effects in a choice of colours, each of these designer electric fires features a version of the immersive Chromalight® LED flame and lighting technology.

Together, these fires present an array of sizes and installation choices, with single-sided, two-sided corner or three-sided panoramic to suit your home, and the Orbit able to be mounted to either flat or vaulted ceilings.

For more information on these outstanding electric fires, please contact your local Onyx expert retailer or visit the website at onyxfires.com, where you can view and download the dedicated brochures.
